Objective:

Searching for a challenging position as a software engineer to utilise my tech and design skills for software program development, testing and quality management.

Project :

• Coin Convert Master

- I successfully designed and implemented a Coin Convert Master website from inception to completion.
- Leveraging my skills in front-end development, I created an intuitive user interface for seamless currency conversion.
- The site utilizes real-time exchange rate data, ensuring accuracy and reliability. With a focus on responsive design, performance optimization, and user experience, I delivered a mobile-friendly platform.

• Elevating canteen management with modern web solution

- The Eleveting Canteen Management System Streamlines Software Field Food Services by Integrating Automated payment, Inventory Tracking, and meal Distribution, Enhancing efficiency and Reducing Manual Tasks.
- It Provides a Seamless Experience for Canteen Patrons while Optimizing Operations for Administrators

Certifications :

- Hacker Rank (python) (HTML, CSS & javaScript)
- Elite Certificate (Machine Learning)
- Workshop of Secret of Canava
- Python Programming
- Udemy Certificate (python) (HTML, CSS & javaScript)

Extra-Curricular activities:

- State Level Runner Up in football match
- Publicity Member of team ESSA
- Member of Cultural Council team in college
- Treasurer of Team ESSA
